

PARA JUMBLE

Direction :- [Q .1. to Q .330.] Sentences of a paragraph are given below in jumbled order. Arrange the sentences in the correct order to form a meaningful and coherent paragraph.

Examination wise Questions

SSC CGL 2025 Tier - I

Q.1.

1. Raw data from these sensors was then streamed to a central processing unit.
2. Machine learning algorithms were deployed to identify anomalies in the data patterns.
3. Environmental sensors were installed across the industrial facility.
4. Early detection of equipment malfunction became possible due to this system.

SSC CGL 12/09/2025 (Shift 1)

- (a) 3 - 1 - 2 - 4 (b) 1 - 3 - 2 - 4 (c) 3 - 2 - 1 - 4 (d) 2 - 1 - 3 - 4

Q.2.

1. They monitor seismic activity, atmospheric pressure, and ground deformation.
2. Predicting volcanic eruptions remains a complex scientific challenge.
3. Advanced sensor networks are crucial for collecting vital precursory data.
4. However, the exact timing and magnitude often elude precise forecasting.

SSC CGL 12/09/2025 (Shift 1)

- (a) 2, 3, 1, 4 (b) 3, 1, 2, 4 (c) 2, 4, 3, 1 (d) 1, 3, 2, 4

Q.3.

1. This often leads to misunderstandings, frustration, and a breakdown in teamwork.
2. Semantic barriers, arising from different interpretations of words or jargon, are particularly common.
3. Effective communication is frequently hindered by various obstacles in the workplace.
4. Overcoming these requires clarity in language, active listening, and empathy for diverse perspectives.

SSC CGL 12/09/2025 (Shift 2)

- (a) 3, 2, 1, 4 (b) 2, 1, 3, 4 (c) 3, 1, 2, 4 (d) 1, 3, 2, 4

Q.4.

1. Solar power, harnessing the sun's abundant radiation, is becoming increasingly cost-effective and efficient.
2. The world is actively seeking sustainable alternatives to finite fossil fuels for its energy needs.
3. Wind energy, derived from atmospheric currents, provides another clean and readily available source.
4. These inexhaustible resources offer a promising pathway to a future powered by clean, renewable energy.

SSC CGL 12/09/2025 (Shift 2)

- (a) 2, 1, 3, 4 (b) 1, 3, 2, 4 (c) 2, 4, 1, 3 (d) 1, 2, 3, 4

Q.5.

1. This new approach significantly boosted employee morale.
2. The company decided to implement a flexible work-from-home policy.
3. Initially, some managers expressed concerns about productivity.

4. However, careful monitoring showed no dip in output.

SSC CGL 12/09/2025 (Shift 3)

- (a) 2 - 3 - 4 - 1 (b) 1 - 2 - 3 - 4 (c) 3 - 4 - 2 - 1 (d) 2 - 1 - 3 - 4

Q.6.

1. This allows the bird to remain almost perfectly still relative to the flower.
2. The hummingbird's wings beat at an incredibly high frequency, often over 50 times per second.
3. This unique ability enables them to efficiently extract nectar while hovering in mid-air.
4. Such rapid wing movements create a stable platform, counteracting any air currents.

SSC CGL 12/09/2025 (Shift 3)

- (a) 2, 4, 1, 3 (b) 1, 3, 2, 4 (c) 3, 2, 4, 1 (d) 2, 1, 4, 3

Q.7.

1. Cyberpunk, for instance, envisions dystopian futures dominated by advanced technology and corporate control.
2. Within science fiction, various subgenres have emerged, each exploring distinct themes and aesthetics.
3. This thematic diversity allows the genre to appeal to a broad range of readers and intellectual interests.
4. Meanwhile, space opera focuses on grand interstellar conflicts and epic voyages across vast galaxies.

SSC CGL 13/09/2025 (Shift 1)

- (a) 2, 1, 4, 3 (b) 1, 2, 3, 4 (c) 2, 3, 1, 4 (d) 4, 1, 2, 3

Q.8.

1. This enables organisms to adapt to changing environments and ensures the survival of species.
2. Natural selection is a fundamental mechanism of evolution.
3. It describes the process where individuals with traits best suited to their environment are more likely to survive and reproduce.
4. Over time, these advantageous traits become more common in the population.

SSC CGL 13/09/2025 (Shift 1)

- (a) 3, 1, 2, 4 (b) 2, 3, 1, 4 (c) 2, 1, 3, 4 (d) 1, 2, 3, 4

Q.9.

1. This can manifest as filter bubbles, where individuals are only exposed to information confirming their existing beliefs.
2. The algorithms of social media platforms often contribute to the fragmentation of public opinion.
3. Consequently, reaching a broad consensus on complex issues becomes increasingly difficult.
4. These systems are designed to maximize engagement by feeding users content similar to what they have previously interacted with.

SSC CGL 13/09/2025 (Shift 2)

- (a) 2, 4, 1, 3 (b) 1, 2, 4, 3 (c) 4, 1, 2, 3 (d) 2, 1, 4, 3

Q.10.

1. Academic integrity, therefore, is paramount in upholding the trustworthiness of these contributions.
2. Scientific papers, doctoral theses, and scholarly articles all represent significant intellectual endeavors.
3. These works collectively advance human understanding across diverse fields.
4. Any compromise in integrity, such as plagiarism or falsification of data, undermines the entire edifice of knowledge.

SSC CGL 13/09/2025 (Shift 2)

- (a) 2, 1, 3, 4 (b) 3, 1, 2, 4 (c) 1, 4, 2, 3 (d) 2, 3, 1, 4

Q.11.

1. Museums preserve cultural memory by safeguarding artefacts and stories.
2. Through careful curation, they connect past experiences with contemporary audiences.
3. This continuity helps communities understand their roots and shared identity.
4. Consequently, public support for museums strengthens when people see their relevance to daily life.

SSC CGL 13/09/2025 (Shift 3)

- (a) 1, 2, 3, 4 (b) 2, 3, 1, 4 (c) 1, 3, 2, 4 (d) 3, 2, 4, 1

Q.12.

1. Such initiatives often include public awareness campaigns and improved waste management infrastructure.
2. Urban areas worldwide grapple with escalating levels of municipal solid waste.
3. Addressing this crisis necessitates comprehensive strategies involving both policy-makers and citizens.
4. Furthermore, promoting recycling and composting can significantly reduce landfill dependency.

SSC CGL 13/09/2025 (Shift 3)

- (a) 2, 1, 3, 4 (b) 1, 3, 2, 4 (c) 2, 3, 1, 4 (d) 3, 2, 1, 4

Q.13.

1. These large predatory fish are known for their speed and sharp teeth, making them apex predators in their marine habitats.
2. Sharks are a fascinating group of cartilaginous fish found in oceans all over the world.
3. Their skeletons are made of cartilage rather than bone, a feature that distinguishes them from most other fish.
4. From the massive whale shark, the largest fish in the world, to the small dwarf lanternshark, their diversity is remarkable.

SSC CGL 14/09/2025 (Shift 1)

- (a) 2, 4, 3, 1 (b) 4, 3, 2, 1 (c) 3, 2, 1, 4 (d) 2, 1, 4, 3

Q.14.

1. The invention of the printing press in the 15th century revolutionized how knowledge was shared across Europe.
2. This technological breakthrough made books more affordable and accessible to the general public.
3. As a result, literacy rates began to rise, paving the way for intellectual movements such as the Renaissance and the Reformation.
4. Before this invention, manuscripts were copied by hand, a slow and expensive process limited to the elite.

SSC CGL 14/09/2025 (Shift 1)

- (a) 4, 1, 2, 3 (b) 1, 4, 2, 3 (c) 4, 2, 1, 3 (d) 1, 2, 3, 4

Q.15.

1. This process, known as evaporation, plays a crucial role in regulating Earth's temperature and maintaining the water cycle.
2. It occurs when water molecules at the surface gain enough energy to escape into the atmosphere as vapor.
3. The rate of evaporation depends on several factors such as temperature, humidity, and wind speed.
4. Evaporation is one of the key processes through which water moves from oceans, lakes, and rivers into the air.

SSC CGL 14/09/2025 (Shift 2)

- (a) 4, 2, 3, 1 (b) 2, 3, 4, 1 (c) 3, 2, 1, 4 (d) 4, 3, 2, 1

Q.16.

1. These systems use sensors and software to interpret their surroundings, enabling them to make navigation decisions without human input.
2. Autonomous vehicles are considered one of the most transformative innovations in modern transportation.
3. However, widespread adoption faces challenges related to safety, regulation, and ethical decision-making.
4. They promise to reduce accidents, improve traffic efficiency, and revolutionize urban mobility.

SSC CGL 14/09/2025 (Shift 2)

- (a) 1, 2, 4, 3 (b) 2, 1, 4, 3 (c) 4, 3, 2, 1 (d) 2, 4, 1, 3

Q.17.

1. Critics argue that such policies disproportionately affect vulnerable populations and can stifle economic growth.
2. The debate around universal basic income (UBI) has intensified in recent years, drawing attention from various sectors.
3. Proponents suggest UBI could alleviate poverty, reduce inequality, and provide a safety net in an automating world.
4. It proposes a regular, unconditional cash payment to all citizens, regardless of their income or employment status.

SSC CGL 14/09/2025 (Shift 3)

- (a) 2, 4, 3, 1 (b) 4, 2, 1, 3 (c) 2, 3, 1, 4 (d) 3, 1, 2, 4

Q.18.

1. The human brain, a marvel of biological engineering, possesses an astonishing capacity for learning and adaptation.
2. Neuroplasticity, its ability to reorganise itself by forming new neural connections, underpins this remarkable faculty.
3. This process allows us to acquire new skills, form memories, and even recover from brain injuries.
4. From childhood development to adult learning, this dynamic re-wiring occurs continuously.

SSC CGL 14/09/2025 (Shift 3)

- (a) 1, 2, 3, 4 (b) 2, 1, 4, 3 (c) 1, 3, 2, 4 (d) 4, 1, 3, 2

Q.19.

1. This practice involves using genetic material to identify individuals and establish relationships, offering unprecedented accuracy.
2. Forensic science has been revolutionized by advancements in DNA profiling.
3. Its applications range from solving cold cases and identifying disaster victims to exonerating wrongly accused individuals.
4. Before DNA, forensic methods relied heavily on less precise evidence like fingerprints and eyewitness accounts.

SSC CGL 15/09/2025 (Shift 1)

- (a) 2, 4, 1, 3 (b) 4, 2, 1, 3 (c) 2, 1, 4, 3 (d) 1, 2, 3, 4

Q.20.

1. These "natural climate solutions" leverage ecosystems' inherent ability to absorb and store carbon.
2. Beyond simply reducing emissions, many conservation efforts now focus on sequestering existing carbon from the atmosphere.
3. Such initiatives often include reforestation, wetland restoration, and sustainable agricultural practices.
4. This approach is gaining traction as a vital complement to transitioning away from fossil fuels.

SSC CGL 15/09/2025 (Shift 1)

- (a) 2, 3, 1, 4 (b) 3, 1, 2, 4 (c) 2, 1, 3, 4 (d) 4, 2, 1, 3

Q.21.

1. For centuries, cartographers placed themselves at the center of the world map, revealing more about human ego than geographic accuracy.
2. The projection of power through maps demonstrates how knowledge can serve as an instrument of domination.
3. Colonial empires redrew boundaries to reflect their influence, shaping political realities that persist even today.
4. Thus, the act of mapping has always been less about location and more about perception.

SSC CGL 15/09/2025 (Shift 2)

- (a) 1, 3, 2, 4 (b) 1, 2, 3, 4 (c) 4, 1, 3, 2 (d) 2, 1, 3, 4

Q.22.

1. This essential gas then diffuses into the bloodstream, binding with haemoglobin in red blood cells.
2. Respiration is a complex physiological process vital for sustaining human life.
3. Simultaneously, carbon dioxide, a waste product, moves from the blood into the alveoli to be exhaled.
4. It begins with the inhalation of air, where oxygen travels through the airways to tiny air sacs called alveoli in the lungs.

SSC CGL 15/09/2025 (Shift 3)

- (a) 2, 4, 1, 3 (b) 4, 1, 2, 3 (c) 2, 1, 4, 3 (d) 1, 3, 2, 4

Q.23.

1. Forest ecosystems act as natural regulators by absorbing carbon dioxide, releasing oxygen, and supporting diverse forms of life.
2. However, rapid deforestation caused by urban expansion, logging, and agriculture has severely disrupted these ecological balances.
3. This degradation not only accelerates climate change but also threatens countless species with extinction.
4. Protecting and restoring forests through sustainable practices is therefore essential to preserve biodiversity and maintain global climate stability.

SSC CGL 15/09/2025 (Shift 3)

- (a) 1, 3, 2, 4 (b) 2, 1, 3, 4 (c) 1, 2, 3, 4 (d) 2, 3, 1, 4

Q.24.

1. These systems can identify spoken words and phrases and convert them into written text.
2. Speech recognition technology enables machines to interpret and process human language.
3. With the help of machine learning algorithms, accuracy improves as the system is exposed to more data.
4. Applications like voice assistants and automated transcription tools rely heavily on this technology.

SSC CGL 16/09/2025 (Shift 1)

- (a) 2, 1, 3, 4 (b) 2, 4, 1, 3 (c) 1, 2, 3, 4 (d) 4, 3, 2, 1

Q.25.

1. Renewable energy sources such as solar and wind power are being developed to reduce dependence on fossil fuels.
2. These sources are cleaner and help mitigate the effects of climate change.
3. The growing global demand for energy has led to environmental concerns about sustainability.
4. Transitioning to renewables requires investment in technology and supportive government policies.

SSC CGL 16/09/2025 (Shift 1)

- (a) 3, 1, 2, 4 (b) 1, 3, 2, 4 (c) 3, 2, 1, 4 (d) 2, 4, 3, 1

Q.26.

1. This leads to a complex web of interactions that influence local weather patterns.
2. The Amazon rainforest plays a crucial role in regulating global climate.
3. It releases vast amounts of moisture into the atmosphere through evapotranspiration.
4. Deforestation, therefore, not only destroys biodiversity but also threatens global climatic stability.

SSC CGL 16/09/2025 (Shift 2)

- (a) 2 - 3 - 1 - 4 (b) 3 - 1 - 2 - 4 (c) 2 - 4 - 1 - 3 (d) 1 - 2 - 3 - 4

Q.27.

1. Renewable energy sources such as solar and wind have emerged as viable alternatives to fossil fuels.
2. As global energy demand continues to rise, the transition to cleaner sources becomes increasingly urgent.
3. Governments and corporations are investing heavily in green technologies to reduce carbon emissions.
4. This shift not only mitigates climate change but also promotes economic innovation and energy security.

SSC CGL 16/09/2025 (Shift 3)

- (a) 2, 1, 3, 4 (b) 1, 2, 4, 3 (c) 2, 3, 1, 4 (d) 1, 3, 2, 4

Q.28.

1. Urban planning must therefore integrate green spaces, efficient public transport, and affordable housing.
2. Rapid urbanization presents challenges such as congestion, pollution, and strain on infrastructure.
3. Cities that plan proactively can become more livable and resilient to social and environmental stresses.
4. Addressing these issues requires coordinated policy, community engagement, and long-term vision.

SSC CGL 16/09/2025 (Shift 3)

- (a) 2, 1, 4, 3 (b) 2, 4, 1, 3 (c) 1, 3, 2, 4 (d) 3, 2, 1, 4

Q.29.

1. The seeds are sown in fertile soil.
2. The crops are harvested once they mature.
3. The plants are watered regularly for growth.
4. After germination, seedlings start appearing.

SSC CGL 17/09/2025 (Shift 1)

- (a) 1 - 4 - 3 - 2 (b) 1 - 3 - 4 - 2 (c) 4 - 1 - 3 - 2 (d) 1 - 2 - 3 - 4

Q.30.

1. This adaptability enables ecosystems to recover from disturbances and maintain long-term stability.
2. Ecosystem resilience refers to the capacity of a natural system to absorb stress and reorganize while undergoing change.
3. In the context of climate change, resilience is a crucial factor determining the survival of many species.
4. It involves complex interactions among biotic and abiotic components that allow systems to withstand external pressures.

SSC CGL 17/09/2025 (Shift 1)

- (a) 2, 4, 1, 3 (b) 4, 2, 1, 3 (c) 2, 1, 3, 4 (d) 3, 2, 4, 1

Q.31.

1. Furthermore, historical contexts often shape the development and interpretation of ethical frameworks.
2. Ethics, as a branch of philosophy, systematically explores moral principles that govern a person's behaviour.
3. It delves into questions of right and wrong, good and bad, in both individual actions and societal structures.

4. This exploration is not static, as evolving cultural norms and scientific discoveries continuously challenge established moral perspectives.

SSC CGL 17/09/2025 (Shift 2)

- (a) 2, 3, 4, 1 (b) 3, 2, 1, 4 (c) 2, 1, 3, 4 (d) 4, 1, 2, 3

Q.32.

1. The fragrance that rises from the earth after rain is cherished by many across cultures.
2. This pleasant smell is known as petrichor, a term derived from Greek words meaning "stone" and "the blood of gods."
3. This scent comes from plant oils and a compound called geosmin released by soil bacteria.
4. It evokes a deep sense of nostalgia and freshness, reminding people of renewal and calm after a storm.

SSC CGL 17/09/2025 (Shift 2)

- (a) 2, 3, 1, 4 (b) 1, 2, 3, 4 (c) 1, 3, 2, 4 (d) 3, 1, 4, 2

Q.33.

1. Such events cause widespread destruction and displacement.
2. Global warming is increasing the frequency and intensity of extreme weather.
3. Communities must develop better preparedness and resilience strategies.
4. Examples include more powerful hurricanes and prolonged droughts.

SSC CGL 17/09/2025 (Shift 3)

- (a) 2 - 4 - 1 - 3 (b) 1 - 2 - 4 - 3 (c) 4 - 2 - 1 - 3 (d) 2 - 1 - 4 - 3

Q.34.

1. It refers to the ability to bounce back from adversity.
2. Resilience is a critical psychological trait.
3. Individuals with high resilience can cope better with stress and setbacks.
4. Consequently, building resilience is important for mental well-being.

SSC CGL 17/09/2025 (Shift 3)

- (a) 2-1-3-4 (b) 1-2-3-4 (c) 3-1-2-4 (d) 2-3-1-4

Q.35.

1. Such algorithms power everything from search engines to personalised recommendations.
2. Machine learning, a subset of artificial intelligence, enables systems to learn from data without explicit programming.
3. This iterative learning process allows them to identify patterns and make predictions.
4. Thus, understanding its principles has become vital in many modern industries.

SSC CGL 18/09/2025 (Shift 1)

- (a) 1, 2, 4, 3 (b) 2, 3, 1, 4 (c) 3, 2, 1, 4 (d) 4, 1, 2, 3

Q.36.

1. Their unique anatomy allows them to thrive in diverse aquatic environments.
2. Amphibians, a class of vertebrates, represent a fascinating evolutionary link between fish and reptiles.
3. This duality is evident in their life cycle, which often includes both aquatic larval stages and terrestrial adult forms.
4. However, many species are now facing severe threats due to habitat loss and pollution.

SSC CGL 18/09/2025 (Shift 1)

- (a) 2 - 1 - 3 - 4 (b) 1 - 2 - 4 - 3 (c) 3 - 1 - 2 - 4 (d) 2 - 3 - 1 - 4

Q.37.

1. The Internet of Things (IoT) connects everyday devices to the internet, enabling them to communicate and share data.
2. For instance, smart home systems allow users to control lights and appliances remotely.
3. This interconnectivity improves efficiency, convenience, and decision-making across industries.
4. By analyzing the collected data, IoT systems can automate tasks and predict future needs.

SSC CGL 18/09/2025 (Shift 2)

- (a) 1, 4, 3, 2 (b) 1, 3, 4, 2 (c) 1, 2, 3, 4 (d) 2, 4, 1, 3

Q.38.

1. This has raised serious concerns among health experts.
2. Obesity has become one of the most common health issues worldwide.
3. It increases the risk of various diseases such as diabetes and heart problems.
4. The main reasons include unhealthy diets and lack of physical activity.

SSC CGL 18/09/2025 (Shift 2)

- (a) 2 - 4 - 3 - 1 (b) 4 - 3 - 2 - 1 (c) 2 - 3 - 4 - 1 (d) 3 - 2 - 4 - 1

Q.39.

1. Regular reflection on one's experiences helps solidify these lessons.
2. Personal growth is an ongoing journey that often stems from embracing new challenges.
3. Every setback, rather than being a failure, can be viewed as an opportunity to learn.
4. It is through these experiences that individuals gain resilience and deeper understanding.

SSC CGL 18/09/2025 (Shift 3)

- (a) 2 - 3 - 4 - 1 (b) 3 - 2 - 1 - 4 (c) 2 - 1 - 3 - 4 (d) 4 - 1 - 2 - 3

Q.40.

1. This led to a significant increase in demand for skilled workers in computing fields.
2. The advent of the internet fundamentally transformed global communication and commerce.
3. New industries emerged, centred around e-commerce, software development, and digital services.
4. Consequently, educational institutions rapidly adapted their curricula to meet these new needs.

SSC CGL 18/09/2025 (Shift 3)

- (a) 2 - 3 - 1 - 4 (b) 3 - 2 - 4 - 1 (c) 2 - 1 - 3 - 4 (d) 1 - 3 - 2 - 4

Q.41.

1. The digestive system breaks down food into nutrients that the body can absorb.
2. These nutrients provide the energy and materials needed for growth and repair.
3. The process starts in the mouth, where enzymes in saliva begin breaking down carbohydrates.
4. The food then passes through the stomach and intestines, where further digestion and absorption occur.

SSC CGL 19/09/2025 (Shift 1)

- (a) 1, 3, 4, 2 (b) 3, 1, 2, 4 (c) 3, 4, 1, 2 (d) 1, 4, 2, 3

Q.42.

1. Reading books expands one's imagination and vocabulary.
2. It also helps develop empathy by exposing readers to different perspectives.
3. In a world dominated by technology, reading remains a timeless habit.
4. Therefore, cultivating a reading habit is beneficial for lifelong learning.

SSC CGL 19/09/2025 (Shift 1)

(a) 3 - 1 - 2 - 4 (b) 1 - 3 - 4 - 2 (c) 2 - 1 - 3 - 4 (d) 3 - 2 - 4 - 1

Q.43.

1. This incessant demand strains natural resources, from forests to freshwater, often beyond their regenerative capacities.
2. The escalating problem of excessive consumption is a defining characteristic of modern industrial societies.
3. It is driven by various factors, including aggressive marketing, planned obsolescence, and societal pressures to acquire more.
4. Ultimately, curbing excessive consumption is crucial for environmental sustainability and equitable resource distribution globally.

SSC CGL 19/09/2025 (Shift 2)

(a) 3 - 1 - 2 - 4 (b) 1 - 2 - 4 - 3 (c) 2 - 3 - 1 - 4 (d) 2 - 4 - 1 - 3

Q.44.

1. This can lead to increased consumer spending and business investment.
2. Central banks often implement monetary policies to manage inflation and economic growth.
3. Lowering interest rates is one such tool, making borrowing cheaper.
4. However, these policies must be carefully balanced to avoid overheating the economy.

SSC CGL 19/09/2025 (Shift 2)

(a) 1 - 2 - 3 - 4 (b) 2 - 3 - 1 - 4 (c) 3 - 1 - 2 - 4 (d) 2 - 4 - 1 - 3

Q.45.

1. It helps them set clear goals and measure progress effectively.
2. Strategic planning is vital for organizational success.
3. It involves analyzing resources and assessing future opportunities.
4. Without a plan, companies may lose direction and efficiency.

SSC CGL 19/09/2025 (Shift 3)

(a) 2 - 3 - 1 - 4 (b) 3 - 2 - 1 - 4 (c) 2 - 1 - 3 - 4 (d) 1 - 3 - 2 - 4

Q.46.

1. The discovery of fire marked a turning point in human evolution.
2. It provided warmth, protection, and a new method for cooking food.
3. This advancement significantly improved nutrition and quality of life.
4. Over time, mastery over fire became a foundation for technological progress.

SSC CGL 19/09/2025 (Shift 3)

(a) 1, 2, 3, 4 (b) 2, 3, 4, 1 (c) 1, 3, 2, 4 (d) 4, 1, 2, 3

Q.47.

1. It allows for the exchange of ideas and the challenging of assumptions.
2. Open discourse is fundamental for a healthy democratic society.
3. Without it, public debate can become stagnant and divisive.
4. Engaging with diverse viewpoints broadens understanding and promotes empathy.

SSC CGL 20/09/2025 (Shift 1)

(a) 1 - 4 - 3 - 2 (b) 1 - 2 - 3 - 4 (c) 3 - 1 - 2 - 4 (d) 2 - 1 - 4 - 3

Q.48.

1. It delivers oxygen and nutrients to cells.
2. The human body has a complex circulatory system.

3. This keeps all our tissues functioning correctly.

4. The heart pumps blood through this network.

SSC CGL 20/09/2025 (Shift 1)

(a) 1 - 4 - 3 - 2 (b) 3 - 4 - 1 - 2 (c) 2 - 3 - 4 - 1 (d) 2 - 4 - 1 - 3

Q.49.

1. The proposal to build a new metro line was initially met with public skepticism.
2. Construction began after environmental clearances were obtained.
3. Over time, the metro project gained support as traffic congestion worsened.
4. Upon completion, the metro system greatly improved urban connectivity.

SSC CGL 20/09/2025 (Shift 2)

Solutions :-

Sol.1.(a) 3-1-2-4

Sentence 3 describes the initial setup: installing sensors. Sentence 1 explains what happens to the data from these sensors: it's streamed to a processing unit. Sentence 2 details the next step in processing: applying machine learning. Sentence 4 then states the beneficial outcome of this entire

process: early detection of malfunctions. Going through the options, option (a) has the correct sequence.

Sol.2.(a) 2, 3, 1, 4

Sentence 2 introduces the main topic: the challenge of predicting volcanic eruptions. Sentence 3 then states a key tool used in this process: advanced sensor networks. Sentence 1 elaborates on what these sensors do: they monitor various activities. Finally, sentence 4 provides a concluding thought, highlighting the remaining difficulty despite the use of sensors. Going through the options, option (a) has the correct sequence.

Sol.3.(a) 3, 2, 1, 4

Sentence 3 will be the starting line as it introduces the main idea of the parajumble, i.e. various obstacles in effective communication. And, sentence 2 then identifies a specific type of barrier: semantic barriers. So, sentence 2 will follow sentence 3. Further, sentence 1 describes the negative consequence of these barriers: misunderstandings and breakdown in teamwork. Finally, sentence 4 offers solutions to overcome these barriers. Going through the options, option (a) has the correct sequence.

Sol.4.(a) 2, 1, 3, 4

Sentence 2 will be the starting line as it introduces the main idea of the parajumble, i.e. the search for sustainable energy alternatives. Sentence 1 then provides the first example of an inexhaustible resource: solar power. Sentence 3 offers another example: wind energy. Finally, sentence 4 concludes by summarising the collective potential of these inexhaustible resources. Going through the options, option (a) has the correct sequence.

Sol.5.(a) 2-3-4-1

Sentence 2 introduces the main subject, the company's decision to implement a flexible work-from-home policy. Sentence 3 logically follows by detailing the initial reaction (concerns from managers). Sentence 4 then provides a counterpoint to these concerns, explaining that monitoring revealed no dip in output. Finally, Sentence 1 concludes by stating the positive outcome, a boost in employee morale, as a result of the policy's success. Going through the options, option (a) has the correct sequence.

Sol.6.(a) 2, 4, 1, 3

Sentence 2 introduces the main subject, the hummingbird's rapid wing beats. Sentence 4 logically follows by explaining the effect of these rapid movements - creating a stable platform. Sentence 1 then clarifies what this stable platform allows for - the bird to remain still. Finally, Sentence 3 concludes by stating the purpose of this unique ability - efficient nectar extraction while hovering. Going through the options, option (a) has the correct sequence.

Sol.7.(a) 2, 1, 4, 3

Sentence 2 introduces the idea of various subgenres within science fiction. Sentence 1 then provides the first example, Cyberpunk. Sentence 4 provides a second example, Space Opera, using "Meanwhile" to show a contrasting but related subgenre. Finally, sentence 3 concludes by highlighting the benefit of this diversity. Going through the options, option (a) has the correct sequence.

Sol.8.(b) 2, 3, 1, 4

Sentence 2 introduces the main topic: natural selection as a mechanism of evolution. Sentence 3 then defines what natural selection is. Sentence 1 explains the benefit of this process: adaptation and species survival. Finally, sentence 4 describes the long-term outcome: advantageous traits becoming more

common. Going through the options, option (b) has the correct sequence.

Sol.9.(a) 2, 4, 1, 3

Sentence 2 will be the starting line as it introduces the main idea of the parajumble, i.e. algorithms contributing to public opinion fragmentation. And, sentence 4 states that these algorithms work by maximising engagement with the similar type of content. So, sentence 4 will follow sentence 2. Further, sentence 1 states that this leads to formation of filter bubbles, limiting exposure to information confirming their existing beliefs & sentence 3 states that it becomes difficult to reach a broad consensus on complex issues. So, sentence 3 will follow sentence 1. Going through the options, option (a) has the correct sequence.

Sol.10.(d) 2, 3, 1, 4

Sentence 2 introduces various forms of academic work. Sentence 3 describes the collective purpose of these works: advancing human understanding. Sentence 1 then introduces the necessity of academic integrity to maintain the trustworthiness of these contributions. Finally, sentence 4 explains the negative consequence of a lack of integrity. Going through the options, option (d) has the correct sequence.

Sol.11.(a) 1, 2, 3, 4

Sentence 1 will be the starting line as it introduces the main idea of the parajumble, i.e. Museums preserve cultural memory. And, sentence 2 states that through careful curation, they connect past experiences with contemporary audiences. So, sentence 2 will follow sentence 1. Further, sentence 3 states the significance of this connection & sentence 4 talks about strengthening of public support for museums because of their relevance to daily life. So, sentence 4 will follow sentence 3. Going through the options, option (a) has the correct sequence.

Sol.12.(c) 2, 3, 1, 4

Sentence 2 introduces the problem: escalating urban waste. Sentence 3 states the need for strategies to address this crisis. Sentence 1 then gives examples of what these strategies include. Finally, sentence 4 provides an additional specific action (promoting recycling and composting) that contributes to solving the problem. Going through the options, option (c) has the correct sequence.

Sol.13.(a) 2, 4, 3, 1

Sentence 2 will be the starting line as it introduces the main subject of the paragraph - sharks. Sentence 4 expands on their diversity, providing examples of different shark species, which logically follows the introduction. Sentence 3 then adds a scientific detail about their anatomy, explaining what makes them unique among fish. Finally, Sentence 1 concludes the paragraph by describing their predatory nature and ecological role. Going through the options, option (a) has the correct sequence.

Sol.14.(a) 4, 1, 2, 3

Sentence 4 will be the starting line as it describes the situation before the main event, the invention of the printing press. Sentence 1 follows naturally, introducing the revolutionary change. Sentence 2 explains the direct impact of this invention, while Sentence 3 concludes by showing the long-term effects on society. Going through the options, option (a) has the correct sequence.

Sol.15.(a) 4, 2, 3, 1

Sentence 4 introduces the main topic of the paragraph, evaporation as a key process in the water cycle. Sentence 2 follows by explaining how the process occurs. Sentence 3 then adds details about the factors influencing evaporation, and Sentence 1 concludes by emphasizing its overall importance. Going through the options, option (a) has the correct sequence.

Sol.16.(b) 2, 1, 4, 3

Sentence 2 will be the starting line as it introduces the main subject of the parajumble i.e., autonomous vehicles as a major innovation in transportation. Sentence 1 explains how these vehicles operate using sensors and software. Sentence 4 highlights the benefits they offer, and Sentence 3 concludes by mentioning the challenges in their implementation. Going through the options, option (b) has the correct sequence.

Sol.17.(a) 2, 4, 3, 1

Sentence 2 will be the startling line as it introduces the main idea of the parajumble, i.e. the debate around universal basic income. And, sentence 4 describes the concept of universal basic income. So, sentence 4 will follow sentence 2. Further, sentence 3 presents the argument made by the proponents in favour of UBI & sentence 1 presents the argument made by critics against the UBI. So, sentence 1 will follow sentence 3. Going through the options, option (a) has the correct sequence.

Sol.18.(a) 1, 2, 3, 4

Sentence 1 introduces the main subject: the brain's capacity for learning and adaptation. Sentence 2 then introduces the key concept of "Neuroplasticity" as the mechanism behind this capacity. Sentence 3 explains the benefits and outcomes of neuroplasticity. Finally, sentence 4 provides the context for when this process occurs. Going through the options, option (a) has the correct sequence.

Sol.19.(a) 2, 4, 1, 3

Sentence 2 will be the starting line as it introduces the main subject of the paragraph, i.e. advancements in DNA profiling revolutionizing forensic science. Sentence 4 will follow next as it provides a contrast by describing earlier, less precise methods used before DNA technology. Sentence 1 then explains what DNA profiling involves and highlights its accuracy. Finally, Sentence 3 concludes by mentioning the wide range of applications of DNA profiling. Going through the options, option (a) has the correct sequence.

Sol.20.(c) 2, 1, 3, 4

Sentence 2 will be the starting line as it introduces the main idea that conservation efforts now focus on sequestering carbon from the atmosphere. Sentence 1 will follow as it defines these efforts as "natural climate solutions" and explains their mechanism. Sentence 3 comes next as it provides examples of such initiatives like reforestation and wetland restoration. Finally, Sentence 4 concludes by highlighting the growing importance of this approach as a complement to moving away from fossil fuels. Going through the options, option (c) has the correct sequence.

Sol.21.(a) 1, 3, 2, 4

Sentence 1 will be the starting line as it introduces the main subject of the paragraph, i.e., how cartographers placed themselves at the center of world maps, showing human ego rather than accuracy. Sentence 3 follows as it continues the idea by explaining how colonial empires redrew boundaries to assert their influence. Sentence 2 logically comes next because it generalizes this idea, highlighting that maps were used as

instruments of domination. Finally, sentence 4 concludes the paragraph by drawing an inference that mapping has always been more about perception than location. Going through the options, option (a) has the correct sequence.

Sol.22.(a) 2, 4, 1, 3

Sentence 2 will be the starting line as it introduces the main idea of the parajumble, i.e. respiration is a vital physiological process. Sentence 4 then describes the initial step of this process: inhalation and oxygen reaching the alveoli. So, sentence 4 will follow sentence 2. Further, sentence 1 explains what happens next with the oxygen, i.e. diffusion into the bloodstream. Finally, sentence 3 details the concurrent process of carbon dioxide removal. Going through the options, option (a) has the correct sequence.

Sol.23.(c) 1, 2, 3, 4

Sentence 1 will be the starting line as it introduces the main idea of the parajumble, i.e. the role of forest ecosystems as natural regulators. Sentence 2 then talks about the disruption of these ecological balances due to rapid deforestation. So, sentence 2 will follow sentence 1. Further, sentence 3 talks about negative impact of this degradation & sentence 4 talks about protecting and restoring forests through sustainable practices. So, sentence 4 will follow sentence 3. Going through the options, option (c) has the correct sequence.

Sol.24.(a) 2, 1, 3, 4

Sentence 2 will be the starting line as it introduces the main subject of the paragraph, i.e., speech recognition technology. Sentence 1 follows next as it explains how these systems work by identifying spoken words and converting them into text. Sentence 3 comes next, describing how machine learning improves the system's accuracy over time. Finally, Sentence 4 concludes the paragraph by mentioning real-world applications like voice assistants and transcription tools. Going through the options, option (a) has the correct sequence.

Sol.25.(a) 3, 1, 2, 4

Sentence 3 will be the starting line as it introduces the main idea about the growing energy demand and sustainability concerns, so it comes first. Sentence 1 follows, explaining the development of renewable sources to address the issue. Sentence 2 adds that these sources are cleaner and help fight climate change. Sentence 4 concludes with the need for investment and policies. Hence, option (a) is correct.

Sol.26.(a) 2-3-1-4

Sentence 2 will be the starting line as it introduces the main idea of the parajumble, i.e. the crucial role of the Amazon rainforest. And, sentence 3 states that it releases vast amounts of moisture in the atmosphere through evapotranspiration. So, sentence 3 will follow sentence 2. Further, sentence 1 states that this leads to a complex web of interactions that influence weather patterns & sentence 4 talks about the impact of deforestation, i.e. destruction of biodiversity and a threat to global climatic stability. So, sentence 4 will follow sentence 1. Going through the options, option (a) has the correct sequence.

Sol.27.(a) 2, 1, 3, 4

Sentence 2 will be the starting line as it highlights the main issue of the paragraph i.e. rising global energy demand and the urgency for cleaner sources. Sentence 1 mentions renewable energy sources as viable alternatives, so it will follow 2. Further, Sentence 3 discusses the investments by governments and corporations in green technologies, and Sentence 4 concludes

by showing the positive outcomes of this shift. Going through the options, option (a) has the correct sequence.

Sol.28.(b) 2, 4, 1, 3

Sentence 2 will be the starting line as it contains the main subject of the parajumble i.e. rapid urbanization and its challenges. And, Sentence 4 states that addressing these issues requires coordinated policy, community engagement, and long-term vision. So, 4 will follow 2. Further, Sentence 1 states that urban planning must integrate green spaces, efficient public transport, and affordable housing & Sentence 3 states that cities that plan proactively can become more livable and resilient. So, 3 will follow 1. Going through the options, option (b) has the correct sequence.

Sol.29.(a) 1-4-3-2

Sentence 1 will be the starting line as it contains the main subject of the parajumble i.e. the seeds are sown in fertile soil. And, Sentence 4 states that after germination, seedlings start appearing. So, 4 will follow 1. Further, Sentence 3 states that the plants are watered regularly for growth & Sentence 2 states that the crops are harvested once they mature. So, 2 will follow 3. Going through the options, option (a) has the correct sequence.

Sol.30.(a) 2, 4, 1, 3

Sentence 2 will be the starting line as it contains the main subject of the parajumble i.e. ecosystem resilience. Sentence 4 states that it involves complex interactions among biotic and abiotic components that allow systems to withstand external pressures, explaining how resilience functions. So, 4 will follow 2. Further, Sentence 1 mentions that this adaptability enables ecosystems to recover from disturbances and maintain long-term stability, and Sentence 3 adds that resilience is crucial for species' survival in the context of climate change. So, 3 will follow 1. Going through the options, option (a) has the correct sequence.

Sol.31.(a) 2, 3, 4, 1

Sentence 2 will be the starting line as it introduces the main idea of the parajumble, i.e. 'Ethics is a branch of philosophy which explores moral principles.' And, sentence 3 states that it delves into questions of right and wrong, good and bad. So, sentence 3 will follow sentence 2. Further, sentence 4 states that this exploration is not static as evolving cultural norms and scientific discoveries continuously challenge established moral perspectives. So, sentence 4 will follow sentence 3. Sentence 1 concludes the parajumble by stating that historical contexts often shape the development and interpretation of ethical frameworks. Going through the options, option (a) has the correct sequence.

Sol.32.(b) 1, 2, 3, 4

Sentence 1 will be the starting line as it introduces the main idea of the parajumble, i.e. 'The fragrance that arises from Earth after rain'. And, sentence 2 tells us the name of this scent and the origin of its name. So, sentence 2 will follow sentence 1. Further, sentence 3 states that this scent comes from a compound called geosmin released by soil bacteria & sentence 4 tells us that it evokes a deep sense of nostalgia and freshness. So, sentence 4 will follow sentence 3. Going through the options, option (b) has the correct sequence.

Sol.33.(a) 2 - 4 - 1 - 3

Sentence 2 will be the starting line as it contains the main subject of the parajumble, i.e. global warming and its impact on

extreme weather. Sentence 4 follows as it provides examples of the extreme weather events mentioned in sentence 2. Further, sentence 1 states the consequences of such events, leading naturally to sentence 3, which presents the solution through preparedness and resilience strategies. Going through the options, option (a) has the correct sequence.

Sol.34.(a) 2 - 1 - 3 - 4

Sentence 2 will be the starting line as it contains the main subject of the parajumble i.e. Resilience. And, Sentence 1 states that resilience refers to the ability to bounce back from adversity. So, 1 will follow 2. Further, Sentence 3 states that individuals with high resilience can cope better with stress and setbacks & Sentence 4 states that building resilience is important for mental well-being. So, 4 will follow 3. Going through the options, option (a) has the correct sequence.

Sol.35.(b) 2, 3, 1, 4

Sentence 2 will be the starting line as it introduces the main idea of the parajumble, i.e. Machine learning enables systems to learn from data without explicit programming. And, sentence 3 states that this iterative learning process allows them to identify patterns and make predictions. So, sentence 3 will follow sentence 2. Further, sentence 1 states that such algorithms power everything from search engines to personalised recommendations & sentence 4 states that understanding its principles has become vital in many modern industries. So, sentence 4 will follow sentence 1. Going through the options, option (b) has the correct sequence.

Sol.36.(d) 2 - 3 - 1 - 4

Sentence 2 will be the starting line as it introduces the main idea of the parajumble, i.e. Amphibians represent a fascinating evolutionary link between fish and reptiles. And, sentence 3 states that this dual nature is seen in their life cycle, which often includes both aquatic larval and terrestrial adult forms. So, sentence 3 will follow sentence 2. Further, sentence 1 states that they are able to thrive in diverse aquatic environments due to their unique anatomy. So, sentence 1 will follow sentence 3. However, sentence 4 states that many species are now facing severe threats due to habitat loss and pollution. Going through the options, option (d) has the correct sequence.

Sol.37.(b) 1, 3, 4, 2

Sentence 1 will be the starting line as it introduces the main subject of the paragraph, i.e. the Internet of Things (IoT) and its function of connecting devices. Sentence 3 will follow as it explains the benefits of this interconnectivity such as efficiency and convenience. Further, Sentence 4 elaborates on how these benefits are achieved by describing data analysis and automation. Finally, Sentence 2 provides an example of smart home systems that illustrates the concept discussed earlier. Going through the options, option (b) has the correct sequence.

Sol.38.(a) 2 - 4 - 3 - 1

Sentence 2 will be the starting line as it introduces the main subject of the paragraph, i.e. obesity becoming one of the most common health issues worldwide. Sentence 4 will follow because it explains the main reasons behind this rise of unhealthy diets and lack of physical activity. Further, Sentence 3 describes the consequences by stating that obesity increases the risk of diseases such as diabetes and heart problems. Finally, Sentence 1 concludes by noting that these facts have raised serious concerns among health experts. Going through the options, option (a) has the correct sequence.

Sol.39.(a) 2 - 3 - 4 - 1

Sentence 2 will be the starting line as it introduces the main idea of the parajumble, i.e. Personal growth is a continuous journey that stems from embracing new challenges. And, sentence 3 states that every setback can be viewed as an opportunity to learn. So, sentence 3 will follow sentence 2. Further, sentence 4 states that these experiences help individuals gain resilience and deeper understanding. So, sentence 4 will follow sentence 3. Finally, sentence 1 completes the parajumble by stating that regular reflection on one's experiences helps solidify these lessons. Going through the options, option (a) has the correct sequence.

Sol.40.(a) 2 - 3 - 1 - 4

Sentence 2 will be the starting line as it introduces the main idea of the parajumble, i.e. 'The advent of the internet'. And, sentence 3 gives some examples of transformation such as emergence of new industries related to e-commerce, software development and digital services. So, sentence 3 will follow sentence 2. Further, sentence 1 talks about the impact of this transformation, i.e. significant increase in demand for workers skilled in computing fields. So, sentence 1 will follow sentence 3. Finally, sentence 4 completes the parajumble by stating that educational institutions rapidly adapted their curricula to meet these new needs. Going through the options, option (a) has the correct sequence.

Sol.41.(a) 1, 3, 4, 2

Sentence 1 will be the starting line as it contains the main subject of the parajumble i.e. the digestive system and its function. And, Sentence 3 states that the process starts in the mouth, so 3 will follow 1. Further, Sentence 4 describes the next stages in the stomach and intestines, and Sentence 2 states the purpose of digestion by explaining how nutrients provide energy and materials for growth and repair. So, 2 will follow 4. Going through the options, option (a) has the correct sequence.

Sol.42.(a) 3 - 1 - 2 - 4

Sentence 3 will be the starting line as it introduces the main subject of the paragraph, i.e. that in a world dominated by technology reading remains a timeless habit. Sentence 1 will follow because it states a primary benefit of reading by explaining how it expands imagination and vocabulary. Further, Sentence 2 elaborates on an additional benefit by showing that reading helps develop empathy through exposure to different perspectives. Finally, Sentence 4 provides a logical conclusion that cultivating a reading habit is beneficial for lifelong learning. Going through the options, option (a) has the correct sequence.

Sol.43.(c) 2 - 3 - 1 - 4

Sentence 2 introduces the main topic: excessive consumption as a problem in modern societies. Sentence 3 then explains the causes of excessive consumption. Sentence 1 describes the direct consequence of this excessive consumption: the straining of natural resources. Finally, sentence 4 provides a conclusion, stating the necessity of addressing this issue. Going through the options, option (c) has the correct sequence.

Sol.44.(b) 2 - 3 - 1 - 4

Sentence 2 introduces the general topic of central banks and monetary policies. Sentence 3 provides a specific example of a monetary tool (lowering interest rates). Sentence 1 explains the immediate positive effect of this tool. Finally, sentence 4 offers a cautionary note about the potential risks of such policies. Going through the options, option (b) has the correct sequence.

Sol.45.(a) 2 - 3 - 1 - 4

Sentence A will be the starting line as it contains the main subject of the parajumble i.e. Strategic planning. Sentence C states that strategic planning involves analyzing resources and assessing future opportunities, so C will follow A. Further, Sentence B explains that it helps organizations set clear goals and measure progress effectively, and Sentence D adds that without a plan, companies may lose direction and efficiency. So, D will follow B. Going through the options, option (a) has the correct sequence.

Sol.46.(a) 1, 2, 3, 4

Sentence 1 will be the starting line as it contains the main subject of the parajumble, i.e. the discovery of fire. Sentence 2 states the immediate benefits of fire, so 2 will follow 1. Sentence 3 explains the broader impact of those benefits on nutrition and quality of life, so 3 comes next. Finally, Sentence 4 shows the long term consequence that mastery over fire led to technological progress, so 4 will follow 3. Going through the options, option (a) has the correct sequence.

Sol.47.(d) 2 - 1 - 4 - 3

Sentence 2 introduces the main idea: the importance of open discourse in a democracy. Sentence 1 explains the main benefit of this discourse: idea exchange and challenging assumptions. Sentence 4 further talks about the benefit of this discourse: broadened understanding and empathy. Finally, sentence 3 describes the negative consequences of lacking open discourse. Going through the options, option (d) has the correct sequence.

Sol.48.(d) 2 - 4 - 1 - 3

Sentence 2 will be the starting line as it introduces the main idea of the parajumble, i.e. the human body has a complex circulatory system. And, sentence 4 states that the heart pumps blood through this network. So, sentence 4 will follow sentence 2. Further, sentence 1 states that blood delivers oxygen and nutrients to cells & sentence 3 states that this process keeps our tissues functioning properly. So, sentence 3 will follow sentence 1. Going through the options, option (d) has the correct sequence.

Sol.49.(b) 1 - 3 - 2 - 4

Sentence 1 will be the starting line as it introduces the main subject of the passage, i.e., the proposal to build a new metro line. Sentence 3 will follow, as it describes how the project gradually gained public support due to increasing traffic congestion. Next, Sentence 2 mentions that construction began after environmental clearances were obtained. Finally, Sentence 4 concludes the passage by highlighting the improvement in urban connectivity after completion. Going through the options, option (b) has the correct sequence.

Sol.50.(a) 3, 1, 2, 4

Sentence 3 will be the starting line as it introduces the main topic, coral reefs and their nickname "rainforests of the sea." Sentence 1 follows as it explains their importance in filtering water, protecting coastlines, and supporting marine life. Sentence 2 comes next since it highlights the serious threats coral reefs face. Finally, Sentence 4 concludes the paragraph with a call for urgent global action. Going through the options, option (a) has the correct sequence.

Sol.51.(a) 1 - 3 - 2 - 4

Sentence 1 will be the starting line as it introduces the main subject of the parajumble, i.e., Virtual Reality. Sentence 3 explains how users access VR, so it will follow Sentence 1.

Sentence 2 states the applications of VR, so it comes next. Finally, Sentence 4 mentions the challenges for widespread adoption. Going through the options, option (a) has the correct sequence.

Sol.52.(a) 1 - 3 - 2 - 4

Sentence 1 will be the starting line as it introduces the main subject of the parajumble, i.e., Electric Vehicles. Sentence 3 states the benefits of EVs, so it will follow Sentence 1. Sentence 2 explains how EVs work, so it comes next. Finally, Sentence 4 mentions the limitations that slow their adoption. Going through the options, option (a) has the correct sequence.

Sol.53.(a) 2, 3, 1, 4

Sentence 2 introduces the main topic: the role of RAM. Sentence 3 then explains what RAM does in contrast to other storage. Sentence 1 elaborates on why RAM's function is crucial (quick data access for fast operation). Finally, sentence 4 provides a consequence of not having enough RAM. Going through the options, option (a) has the correct sequence.

Sol.54.(b) 1-4-2-3

Sentence 2 introduces the main topic: machine learning and its growing importance. Sentence 3 describes the core process: training algorithms on data. Sentence 1 explains the key outcome of this process: machine learning without explicit programming. Finally, sentence 4 discusses the broad applications of this technology. Therefore, option (b) provides the most logical and coherent flow.

Sol.55.(d) 3, 2, 4, 1

Sentence 3 will be the starting line as it contains the main subject of the parajumble i.e. the law of supply and demand. And, Sentence 2 states that this principle defines how prices settle where quantity demanded equals quantity supplied. So, 2 will follow 3. Further, Sentence 4 gives an example of high demand and low supply causing prices to rise, and Sentence 1 provides the contrasting scenario where supply exceeds demand, causing prices to fall. So, 1 will follow 4. Going through the options, option (d) has the correct sequence.

Sol.56.(a) 3-2-1-4

Sentence 3 will be the starting line as it introduces the main idea of the parajumble i.e. maintaining a balanced diet is crucial for overall health. Sentence 2 follows 3 as it explains what maintaining a balanced diet involves, i.e., consuming a variety of foods in the right proportions. Further, Sentence 1 states that such a diet provides the body with essential nutrients for growth and maintenance, and Sentence 4 explains the benefits, such as preventing malnutrition and chronic health problems. So, 4 will follow 1. Going through the options, option (a) has the correct sequence

Sol.57.(a) 2, 1, 3, 4

Sentence 2 introduces the main topic: the importance of plants. Sentence 1 then describes their primary role: photosynthesis and energy production. Sentence 3 adds another crucial role: oxygen production. Finally, sentence 4 concludes with the consequence of the absence of plants. Going through the options, option (a) has the correct sequence.

Sol.58.(b) 2, 1, 4, 3

Sentence 2 starts by introducing the main idea: phones changed entertainment. Sentence 1 then gives examples of what people do on their phones. Sentence 4 connects this by saying phones

are now the main way to have fun. Finally, sentence 3 explains a result of this change: less use of TVs or game consoles. Going through the options, option (b) has the correct sequence.

Sol.59.(c) 3 - 4 - 1 - 2

Sentence 3 will be the starting line as it contains the main subject of the parajumble i.e. the human eye. And, Sentence 4 states that the lens focuses the incoming light, so 4 will follow 3. Further, Sentence 1 states that the retina converts this light into electrical signals, and Sentence 2 states that the brain interprets these signals to create images. So, 2 will follow 1. Going through the options, option (c) has the correct sequence.

Sol.60.(c) 2 - 3 - 4 - 1

Sentence 2 will be the starting line as it describes the first step in the process, i.e., water evaporating from oceans, lakes, and rivers. Sentence 3 follows as it explains that the evaporated water cools and condenses to form clouds. Sentence 4 comes next, describing that water returns to Earth as precipitation. Finally, Sentence 1 summarizes the process by naming it the water cycle. Going through the options, option (c) has the correct sequence.

Sol.61.(a) 1 - 2 - 3 - 4

Sentence 1 introduces the main idea of the parajumble, i.e. expanding growth of online learning. Then, sentence 2 talks about two aspects of online learning that allow learners to study at their own pace. So, sentence 2 will follow sentence 1. However, sentence 3 states that disparities in connectivity and digital skills can deepen existing inequalities. Finally, sentence 4 concludes the parajumble by stating that it is essential to invest in infrastructure and digital literacy for inclusive learning. Going through the options, option (a) has the correct sequence.

Sol.62.(c) 2, 1, 3, 4

Sentence 2 introduces the main idea of an ecosystem as a dynamic community. Sentence 1 then elaborates on the specific types of interactions that occur within this community. Sentence 3 explains the role of individual species within this structure. Finally, sentence 4 provides a concluding statement about the overall importance of these connections for ecosystem health. Going through the options, option (c) has the correct sequence.

Sol.63.(b) 3 - 4 - 1 - 2

Sentence 3 will be the starting line as it introduces the main subject of the parajumble i.e. effective financial planning. Sentence 4 explains the first step, which is tracking income and expenses. Further, Sentence 1 states that this allows individuals to save and invest wisely for the future, and Sentence 2 concludes with the ultimate benefit, long-term financial security and peace of mind. Going through the options, option (b) has the correct sequence.

Sol.64.(b) 2 - 1 - 4 - 3

Sentence 2 will be the starting line as it introduces the main subject of the parajumble i.e. social media and its convenience. Sentence 1 follows, highlighting that this convenience comes with significant privacy risks. Further, Sentence 4 explains how personal data can be collected and misused, and Sentence 3 concludes by advising that users must be cautious about the information they share online. Going through the options, option (b) has the correct sequence.

Sol.65.(b) 1 - 2 - 3 - 4

Sentence 1 will be the starting line as it introduces the main idea of the parajumble "Climate change is a serious threat to

global ecosystems and human livelihoods". And, sentence 2 talks about the effects of rising temperatures. So, sentence 2 will follow sentence 1. Further, sentence 3 states that these effects highlight the urgency of reducing carbon emissions & sentence 4 states that international cooperation is vital to mitigate its long term impact. Therefore, sentence 4 will follow sentence 3. Going through the options, option (b) has the correct sequence.

Sol.69.(c) 1, 2, 4, 3

Sentence 1 will be the starting line as it contains the main subject of the parajumble i.e. Artificial intelligence transforming industries. Sentence 2 follows as it presents the concerns arising from the rapid development of AI, such as privacy and accountability issues. Sentence 4 comes next as it highlights that despite these risks, AI continues to enhance efficiency and innovation across various sectors. Finally, Sentence 3 concludes the paragraph by showing how governments and researchers are working to regulate AI responsibly. Going through the options, option (c) has the correct sequence.

Sol.70.(a) 2 - 1 - 4 - 3

Sentence 2 will be the starting line as it introduces the main subject of the parajumble i.e., the water cycle, by explaining how water evaporates due to the sun's energy. Sentence 1 states that this vapor cools and condenses to form clouds, so it will follow Sentence 2. Further, Sentence 4 mentions that when clouds become heavy, they release their water content, so it comes next. Finally, Sentence 3 states that water returns to Earth as precipitation, completing the cycle. Going through the options, option (a) has the correct sequence.

Sol.71.(a) 1-3-4-2

Sentence 1 will be the starting line as it introduces the main subject of the parajumble i.e., digital currencies and their impact on traditional banking systems. Sentence 3 explains a key feature of digital currencies, i.e., fast and borderless transactions, so it follows Sentence 1. Further, Sentence 4 mentions the concerns they raise, so it comes next. Finally, Sentence 2 states that governments are exploring ways to regulate their use, concluding the passage. Going through the options, option (a) has the correct sequence.

Sol.72.(c) 2, 1, 3, 4

Sentence 2 will be the starting line as it introduces the main idea of the parajumble, i.e. the excessive use of fossil fuels has led to environmental degradation and global warming. And, sentence 1 states that due to the negative impact of fossil fuels, the demand for renewable energy sources has increased. So, sentence 1 will follow sentence 2. Further, sentence 3 states that renewable sources like solar and wind energy are being adopted worldwide & sentence 4 states that governments and organisations are investing heavily in sustainable energy technologies. So, sentence 4 will follow sentence 3. Going through the options, option (c) has the correct sequence.

Sol.73.(b) 2-3-1-4

Sentence 2 introduces the main topic: machine learning and its growing importance. Sentence 3 describes the core process: training algorithms on data. Sentence 1 explains the key outcome of this process: machines learning without explicit programming. Finally, sentence 4 discusses the broad applications of this technology. Going through the options, option (b) has the correct sequence.

Sol.74.(d) 2 - 4 - 3 - 1

Sentence 2 introduces the main idea: customer satisfaction is crucial. Sentence 4 then explains it's crucial for understanding needs and preferences. Sentence 3 tells us how this understanding is gained, i.e. through feedback mechanisms. Finally, sentence 1 explains the benefit of this entire process: refining offerings. Going through the options, option (d) has the correct sequence.

Sol.75.(b) 1-2-3-4

Sentence 1 will be the starting line as it introduces ancient trade routes connecting distant civilizations. So, sentence 3 will come next. Finally, sentence 4 states the last step, i.e. cooling and packing. Going through the options, option (a) has the correct sequence.

Sol.224.(a) 3-4-2-1

Sentence 3 will be the starting line as it introduces the first step in the research process, i.e. testing hypotheses using protocols. And, sentence 4 states that observations are recorded during the experiment. So, sentence 4 will follow sentence 3. Further, sentence 2 states the third stage, i.e. verified data is compiled into digital formats & sentence 1 states the final stage. So, sentence 1 will follow sentence 2. Going through the options, option (a) has the correct sequence.

Sol.225.(c) QRSP

Part Q will be the starting line as it contains the subject of the sentence, i.e. 'The distribution of study materials'. And, part R contains the helping verb(has) and the main verb(completed). So, R will follow Q. Further, part S states the location where the distribution happened. So, S will follow R. Finally, part P completes the sentence by specifying the standard followed during the process. Hence, option (c) has the correct sequence.

Sol.226.(b) 1-3-2-4

Sentence 1 will be the starting line as it states the first step in farming i.e. the soil was ploughed. And, sentence 3 states the next step, i.e. sowing the seeds in neat rows. Further, sentence 2 states the third step, i.e. water and fertilizers were applied & sentence 4 states the final step, which is gathering the harvest. Going through the options, option (b) has the correct sequence.

Sol.227.(c) 4-2-3-1

Sentence 4 will be the starting line as it introduces the main idea of the parajumble, i.e. Infrastructure projects are restricted by complex regulatory frameworks. And, sentence 2 states that developers submit blueprints, which require clearance from agencies. So, sentence 2 will follow sentence 4. Sentence 3 talks about further slowdowns due to logistical hurdles even after permit grant. So, sentence 3 will follow sentence 2. Finally, sentence 1 concludes the parajumble by stating the negative consequence of the delays. Going through the options, option

(c) has the correct sequence.

Sol.228.(d) RSQP

The given sentence starts with part R as it contains the main subject of the sentence, i.e. 'The comprehensive plan'. Part S contains a past participial phrase 'designed by the urban architects', describing the subject. So, S will follow R. Further, part Q contains the helping verb(was) and the main verb(presented). So, Q will follow S. Finally P states the purpose of presenting the plan, i.e. for final approval and funding. Hence, option (d) has the correct sequence.

Sol.289.(d) 1-3-4-2

Sentence 1 will be the starting line as it states the first step of collecting samples. And, sentence 3 states the next step, i.e. examination of samples under a microscope. So, sentence 3 will follow sentence 1. Further, sentence 4 talks about identifying the specific bacteria & sentence 2 talks about prescribing antibiotics to treat the infection. So, sentence 2 will follow sentence 4. Going through the options, option (d) has the correct sequence.

Sol.230.(b) 4-2-3-1

Sentence 4 will be the starting line as it introduces the first step of forming a hypothesis. And, sentence 2 states the next step, i.e. conducting experiments to gather data. Further, sentence 3 talks about confirming results after analysis. Finally, sentence 1 completes the parajumble by stating the final step, i.e. publishing the findings. Going through the options, option (b) has the correct sequence.

Sol.231.(d) SQR P

The given sentence starts with the phrase 'Conservation efforts', which is the main subject of this sentence. Part S starts with the verb 'have gained', which is the main verb for the subject. So, part S will follow the given phrase. Part Q tells us that it is protecting endangered species and habitats. So, Q will follow S. Part R states that it is restoring ecological balance in sensitive regions while part P states that it faces resistance from industrial sectors. So, P will follow R. Going through the options, option (d) has the correct sequence.

Solutions :-

Sol.232.(b) 1-2-3-4

Sentence 1 is the starting line as it

introduces the main idea of the parajumble, i.e. 'The exhibition opened to the public.' And, sentence 2 states that visitors admired the artworks. So, sentence 2 will follow sentence 1. Further, sentence 3 states that interactive sessions were conducted & sentence 4 states that the feedback received for the interactive sessions was overwhelmingly positive. So, sentence 4 will follow sentence 3. Going through the options, option (b) has the correct sequence.

Sol.233.(d) RSPQ

The given sentence starts with the subject 'Inflation'. Now we need the main verb for this subject. Part R begins with the verb 'affects' and contains its object 'purchasing power'. So, R will come after the word 'Inflation'. Part S begins with the connector 'and' which joins two verbs 'affects' & 'leads'. These two verbs are for the same subject. So, S will follow R. Part S states that inflation leads to increased cost of living & part P tells us the impact of the increased cost of living. So, P will follow S. Finally, part Q completes the sentence by conveying the idea that it becomes difficult for households to manage daily expenses. Going through the options, option (d) has the correct sequence.

Sol.234.(c) RQSP

The given sentence starts with part R as it introduces the main subject of the sentence, i.e. 'The young shooter'. Part Q contains the verb for the subject, i.e. 'was selected'. So, Q will follow R. Part S states the reason for his selection. So, S will follow Q. However, part P states that he lacked international experience, which is a negative point. So, P will be the last part. Going through the options, option (c) has the correct sequence.

Sol.235.(b) QRPS

The given sentence starts with the subject 'The update'. Part Q contains the main verb (enhanced) for the subject 'The update'. So, Q will follow the subject. Part R begins with the conjunction 'and', which joins two ideas 'encryption' & 'data autonomy'. So, R will follow Q. Part P states an advantage of this update, i.e. it ensures security. So, P will follow R. Part S continues part P and gives a complete idea that the update ensures security across user devices. So, S will follow P. Going through the options, option (b) has the correct sequence.

Sol.236.(b) SQRP

The given sentence starts with the subject 'The economic slowdown'. Part S contains the verb 'has led' and conveys the idea that the economic slowdown has caused job losses. And, part Q tells us that there have been job losses in multiple industries. So, Q will follow S. Part R states a negative impact of the economic slowdown, i.e. 'straining household incomes' & part P states another negative impact, i.e. 'reducing consumer spending'. So, P will follow R. Going through the options, option (b) has the correct sequence.

Sol.237.(c) 2-1-4-3

Sentence 2 will be the starting line as it introduces the main idea of the parajumble, i.e. the formation of the Grand Canyon millions of years ago.
